SOFTWARE ENGINEER

I'm a highly motivated Computer Science graduate with a passion for building clean, intuitive web experiences. My freelance work includes creating a modern, responsive Shopify store for a wall-panel company and developing an end-to-end online booking system for a blood-testing clinic—both of which honed my ability to learn quickly, solve problems creatively, and collaborate with clients to deliver polished results. While I'm just starting my professional journey, I bring a strong work ethic, resilience, and genuine enthusiasm for software development. I'm eager to join a dynamic team where I can continue learning and contribute meaningful solutions from day one.

EXPERIENCE

Freelance Web Developer   **September 2024 - Present**

Blood Test London (Blood Testing Clinic):
- **Created an intuitive user flow—from selecting a test or package, to scheduling appointments, to processing payments—that dramatically reduced booking friction.**
- **Integrated responsive design principles and user-friendly navigation to accommodate both desktop and mobile visitors.**
- **Collaborated closely with the client to define requirements, gather feedback, and implement changes efficiently.**
- **Utilised creative problem-solving to overcome challenges in functionality, delivering a fully operational and user-friendly e-commerce platform within tight deadlines.**

Design The Wall (Wall-Panel Company):
- **Built a modern, visually engaging Shopify storefront focusing on bold design elements and dynamic responsiveness.**
- **Optimized images, layout, and load times for a smooth user experience across all devices.**
- **Communicated directly with the client to ensure the final product captured their design vision and targeted audience.**

EDUCATION

BSc (Hons) Computer Science (2:1)
University of East London

BTEC Level 3 National Diploma in Engineering (D*D M)
The Warren School (Sixth Form)

TECHNICAL SKILLS

Java	Express
JavaScript	Node.js
TypeScript	MongoDB
HTML	PostgreSQL
CSS	Git/GitHub

SOFT SKILLS

Agile Learner
Adaptability and Flexibility
Dependability
Problem Solving
Critical Thinking
